

EBCASPERSE DIS POWDER

Edition 04-2020

EBCASPERSE DIS POWDER IS A LOW FOAMING DISPERSING AND LEVELING AGENT FOR DISPERSE DYES.

Typical SPECIFICATIONS

Appearance	Light brown powder
Ionic nature	Anionic
PH(10% solution)	7.0-9.0
Active matter content	28-30%
Solubility	Readily disperses in warm water to give a clear Brown solution
Bulk density	about 0.65

EBCASPERSE RJL does not contain an antifoam

EBCASPERSE RJL HAS NO IMPACT ON ENVIRONMENT

APPLICATIONS

EBCASPERSE RJL has been especially developed as a dispersing agent over a wide range of pH. This product will cause no foam on application. It can be safely used in systems exhibiting either nonionic or anionic ingredients.

EBCASPERSE DIS keep the particles in suspension for much longer time even in dilute systems.

Being specially designed for polyester dyeing, EBCASPERSE DIS can also be efficiently used as a washing for cotton and rayon processing. It is preferable to prepare a dilute solution from EBCASPERSE DIS using water at room temperature. Maximum solids is about 40%.

PACKAGING

25 kG woven bag

Egyptian British Company maintains Material Safety Data sheets (MSDS) on all of its products. These contain important information that you may need to protect your employees and customers against any known health and safety hazards associated with our products.
